EXPERIENCE

Duelles Technology Partners Inc., VA— *Software Developer*

July 2015 - PRESENT

- Team Development of Software used by Federal and Private Non-Profit Organizations
- Created web based software using Java EE library & XML
- Managed and established databases using MySql
- Customized appearance of software for specific clients using JQuery, HTML, and CSS
- Verified security of program against SQL Injection attacks
- Retrieved database information from MySql databases using Java
- Revitalized company webpage using JQuery, Html, and CSS
- Used Agile development methodology to provide reliable software to over 50,000 people on a timely basis

EDUCATION

Rutgers University, New Brunswick — *Computer Science*

Expected Graduation: 2018
GPA: 3.78

May 2015 - Present
I am currently attending Rutgers University with the intent of graduating with a Computer Science major with a concentration in Security and a Mathematics minor.

Most Recent Project:

I created a blog site using Spring boot, MongoDb, Bootstrap, and CKEditor. I chose Spring due to my Java experience at Duelles Tech. I chose MongoDb because of my nonexistant prior experience and was interested in trying something new. I secured the web application using Spring security.

SKILLS

Software Development

Team Communication

Database Administration

Web Design

Personal Projects

Blog –Spring Boot, MongoDb

Evermore – SQL, Jquery, CSS,

Personal Webpage –HTML, CSS, JavaScript
